Prince Albert gives smokers such delight, because

—its flavor is so different and so delightfully good;
—it can't bite your tongue;
—it can't parch your throat;
—you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED
JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

YOU'LL find a cheery howdy-do on top no matter how much of a stranger you are in the neck of the woods you drop into. For, Prince Albert is right there—at the first place you pass that sells tobacco! The tippy red bag sells for a nickel and the tidy red tin for a dime; then there's the hand-some pound and half-pound tin humidor and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such bang-up trim all-the-time!

This is the reverse side of the Prince Albert tidy red tin. Read this "Patented Process" message-to-you and realize what it means in making Prince Albert so much to your liking.

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

VOTERS TURNING TO HUGHES.

He Seems Likely to Get the Larger Independent Support.

Special Correspondence.

Campaign leaders in both political parties fully appreciate the advantage the Republicans have this year in the fact that their national convention was not dominated by any individual or group. There is not the remotest possibility of the charge that "bosses" controlled the Chicago convention. In fact, everybody knows that the great majority of the delegates were chosen in primaries where no dictation was possible, and that in the convention the men who have been recognized as leaders in the past were supporters of various candidates, and, though willing to accept Hughes, were not for him in the first instance. The Hughes nomination came from a popular demand—not from a dictator.

DIFFERENT AT ST. LOUIS.

How different it was in the Democratic convention, where all the important arrangements and many of the details were directed by President Wilson, who selected the presiding officers, designated the men who should make speeches, drafted the platform, and will direct the management of the campaign. As to managing the campaign there can be no criticism, for it is essential that the candidate shall have large control over that.

But prior to the nomination, when, theoretically, the convention was free to nominate any person it might prefer, the action of the President in taking personal charge of everything was not only a slap at the men who have been prominent in his party but it was a demonstration of the one-man character of the democratic organization.

WILL EFFECT INDEPENDENTS.

It is already apparent that the difference will have no small effect upon the independent voters of the country.

The chief reason why some men maintain an attitude of independence of party affiliation is that they dislike the implied obligation to support a candidate whose nomination has been forced by the power of a dictator or of a machine.

FAVOR HUGHES AS MAN.

The independent voter turns easily to the Republican ticket this year, and for several reasons. He is impelled in that direction by "a comparison between the man Woodrow Wilson and the man Charles Evans Hughes in stability of character, in solidity of attainments, in sincerity of professions, in courage of performance, in loyalty to conscience, in the rectitude that abides in the heart and not in the larynx," as the New York Sun recently said.

PROTECT AMERICAN MARKETS.

The independent voter also finds the Republican ticket most attractive because it represents an "America First" policy in industrial affairs, while the Democrats are still wedded to the policy of throwing our markets open to the foreign producer. It is a party with a long constructive record behind it and a policy of constructiveness guiding its future.

ANOTHER DIFFERENCE.

But not the least of the influences which will turn the independent voter to the Republican ticket this year will be the open character of the Republican convention, and the closed, cut-and-dried character of the gathering at St. Louis. And in this there will be many voters heretofore Democratic who will class themselves as independent this year. Having had no voice in making up the ticket or framing the platform, they feel no responsibility for its success, and they feel free to vote for the ticket and the man that more nearly represent their views of wise national policies and practices.

The Democrats still contemplate the maintenance of an organization ostensibly "non-partisan" or "independent" in order to make a show of having some support from independent voters, but the personnel of the management will show very clearly that it is a Democratic organization merely masquerading as independent for effect. The real independent voter is a discerning individual and is not being fooled by the pretense.

WHY ENDURE SUMMER COLDS?

It isn't necessary to have a stuffed head, running nose. To cough your head off as it were. All you need do is to use Dr. Bell's Pine-Tar-Honey. The soothing and healing balsams open the clogged air passages and in a short time you get relief and start on the road to recovery. Your nose stops running, you cough less and you know you are getting better. Get a bottle, use as directed. Keep what is left as a cough and cold insurance. 2.
